

THE MILLS BUILDING

A CLOUD-READY BUILDING

220 Montgomery Street offers tenants multiple Cloud options through an array of technology providers. Tenants have access to local data centers and can choose services such as email hosting, virtual desktops, data backup, disaster recovery, and printing and infrastructure solutions.

AT&T connectivity brings these telecom carriers to 220 Montgomery:

- Masergy
- Birch Communications
- Windstream
- Megapath
- Centurylink
- TelePacific
- Other carriers may be available

Cloud providers also available, including:

- Evolve IP
- ITSavvy

Carrier and technology consulting services

Technology concierge services are available to the building's tenants. IMG and dedicated service providers help tenants to:

- Review telecom, Cloud and broadband options
- Order telecom and broadband services
- Hold carriers accountable for pricing, service levels and installation time frames
- Review VoIP and premises-based phone systems options
- Design and install IT infrastructure

Working with tenants, service providers help design solutions around installation time frames. Installation time frames and procedures are based on the requirements of the carriers or service providers.
